

# 2627: Carpenter's pencil with rechargeable lead.

## The + product :

Suitable for writing on **all materials**.

**Very hard lead**, no sharpening required.

**High resistance** to shock, made in ABS.

## Description

Carpenter's pencil with rechargeable lead, ideal for writing on metal, plastic, concrete, or stone.

Lead blocked effectively by notches. Press the cap to release and slide it without sharpening.

Made of Dura Lead, which lasts 2 to 3 times longer, a lead-free mix of clay and graphite, 18% thicker than a regular pencil.

Spare leads available in black or white.
