

# 2101 : Steel / Stainless Steel Pipe Cutter 10-90 mm

## Description

For quickly cutting steel (gas- API-etc...) and stainless steel pipes, cleanly and squarely.

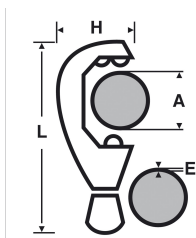

Excellent weight distribution giving improved inertia and providing high stiffness.

Thrust ball bearing prevents slider wear and reduces the turning torque of the screw.

For each model it's possible to change the cutting wheel to cut other materials:

- Cutting wheel 210121 for steel pipes
- Cutting wheel 210122 for grey cast iron pipes
- Cutting wheel 210123 for stainless steel pipes (thickness > 2 mm)

**Max thickness: 5 mm.**
