

2402 : Manual Hydraulic Bender for Locksmith's Pipe

Description

Locksmith's pipes: Ø 12 à 45 mm.

Manual hydraulic bender for worksites or prefabrication.

Simple action circuit with spring-loaded piston return.

Tip:

- Use Virax hydraulic ram oil for best protection.
- All necessary precautions must be taken when filling the ram to avoid foreign matter entering the reservoir as this may impair operation.
- Use horizontally.

(Supplied without formers)
