

2408 : Powered Hydraulic Bender

The + product :

Bending capacity:

Gas pipes: Ø 3/8" to 4" (nfa 49115 - en 10255).

Locksmith's pipes: Ø 12 à 45 mm.

Bending angle: 0° to 90°.

Description

For medium and heavy series gas pipes.

Electrical hydraulic bender for worksites or prefabrication.

Simple action circuit with spring-loaded piston return.

Supplied in a wooden case with the forms and accessories.

Less effort required for large batches.

Limit switch (option - ref. 240811) to reproduce identical bends.

To identify the different types of cheeks, see next pages.

Tip:

- Use Virax hydraulic ram oil for best protection.
- All necessary precautions must be taken when filling the ram to avoid foreign matter entering the reservoir as this may impair operation.
- Use horizontally.

Ref. 240851, Ref. 240852 delivered in two wooden chests
