

# 5210 : Gyroflam® Brazer for Standard Torch with Handle X 200

## Description

Produces a flame that fully wraps around the pipe.  
Ideal for quick brazing.

**WARNING:** Never attach this accessory to a Piezo handle, or you may destroy the flint.

**TIP:** Propane gas is to be diffrenet to butane because at 0°C:  
- Butane produces no pressure.  
- Propane provides a pressure of 4 bar without any difficulty.
