

2901 : Pipe Cleaner Gun

The + product :

Pressure:

up to 6 bars for pipes up to Ø 100 mm.

Efficiency:

98% of energy is directed forward to free blocked pipes.

Safe:

only 2% of released energy acts on the pipe walls.

Description

Ideal for blockages far away from the siphon.

This cleaner uses the kinetic energy stored in the cylindrical body (max. 6 bar) to remove blockages formed by grease, soap, wash water, hair, paper, cloth, etc.

For cleaning domestic drainage pipes of max. internal Ø 100mm (sinks, wash hand basins, urinals, bath-thubs, etc.), as well as toilet if fitted with the optional extension (290151).

Integrated manometer to measure the pressure to be applied.

Supplied in a case.
