

2628: 2m aluminium tripod for XL and XXL floodlights

The + product :

Lightweight for one-handed use.

Push-button opening.

Space-saving storage when folded.

Description

Ideal for installing your Virax spotlight in environments where there is no flat surface, in tight spaces, or for lighting from a high point.

Extends from 0.9m to 2m to suit any environment.

Push-button for quick tripod deployment.

Robust, lightweight and extremely maneuverable thanks to its aluminum construction.

Compatible with Virax XL 2000 lumens (ref 262820) and XXL 4000 lumens (ref 262823) floodlights.
