

2628: 2-in-1 rechargeable pro inspection lamp

The + product :

Lightweight and discreet: pocket size.

Two lighting modes: spot or wide.

Magnetic: two magnetized zones.

Description

Robust, lightweight aluminum inspection light (only 54g) ideal for illuminating a **precise, static work area** (200 lumen COB LED).

Dual directional spot function or wide uniform illumination for versatile use.

Continuous dimmer from 10 to 100% adjusts light output as needed.

Long runtime of up to 10 hours thanks to its 3.7 V / 750 mAh Li-ion battery.

Equipped with **two magnetic zones** and a clip for flexible use.

USB-C charging cable included.
