

3104 : Sanibox set - 7 essential tools for sanitary installations

The + product :

The Sanibox: 7 essential tightening tools for all sanitary installations in strong and handy box.

Description

Set includes :

1 adjustable wrench with reversible jaw (017031) : the two-in-one tool. High quality reversible jaw, with one serrated side for tightening and loosening pipes and damaged nuts, and one smooth side for usual work.

1 plier wrench (011207) : fast adjustment and flat jaw screwing and tightening tool, a perfect combination of slip-joint pliers and adjustable wrench.

2 ratcheting wrenches 4 in 1 (310331 and 310332) : 8 sizes (8, 10, 12, 13, 16, 17, 18, 19 mm). Save weight and space.

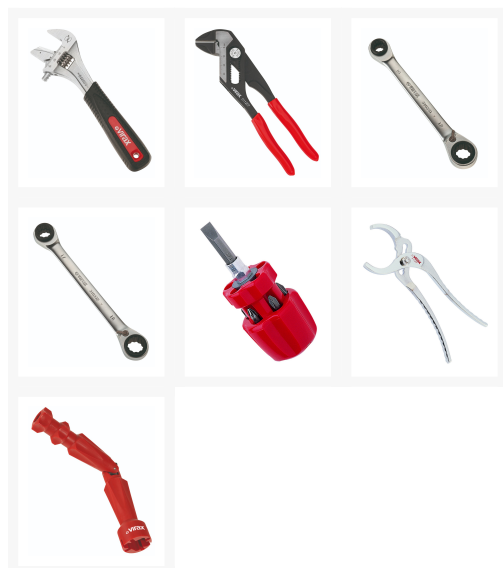

1 mini six-bit screwdriver (342521) : all the bits (0,8x5 - 1x7 - PZ1 - PZ2 - PH1 - PH2) are stored in the handle for safe-keeping. Magnetic bit holder.

1 large-capacity plumbing wrench (011324) : ideal for tightening and loosening large nuts in difficult-to-reach locations. rounded jaws suitable for sanitary installations (traps, couplers, etc.). supplied with plastic jaws.

1 universal wrench for toilet lid (220510) : universal tool for butterfly nut for installing and removing toilet lids with most fixing systems.

Bi-materiel box. Vinyl is waterproof and easy to clean: ideal for wet and dirty construction sites.

Bicolor foam tray: holds tools when box is upside down and see missing tools.
