

*Test your networks
using the VIRAX
pumps!*

Accurate, compact and fast for your seal tests.

 **virax**

Easy to carry thanks to a lever lock mechanism.

MANUAL TEST PUMP

ELECTRIC TEST PUMP

For pumping, testing and bleeding with a single button.

MANUAL TEST PUMP

ELECTRIC TEST PUMP

Manual test pumps

Handy and light for your sealing tests!

Ref.262005

Ref.262015

Ref.262035

Standard equipment:

Plastic tank:

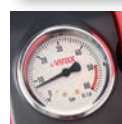

- Light and shock resistant.
- Compact design for cluttered environments.

Long hydraulic hose (1.50 m):

- Practical implementation.

Accurate manometer:

- Accurate result with a 1.6 class manometer.
- Easier reading with 1 bar grading.

Work efficiently with a flow rate of 6L/mn.

- MANUAL TEST PUMP ELECTRIC TEST PUMP

Be independent: supply from an outside tank if no water supply is available.

- MANUAL TEST PUMP ELECTRIC TEST PUMP

Electric test pump

To test sealing of piping and tanks up to 40 bar.

Ref.262070

NEW RELEASE
virax

Standard equipment:

Sturdy ABS structure with carry handle.

- Shock resistant.

Protected glycerine manometer:

- Attenuates shocks and vibrations.
- For easy reading.
- Scale in bar, psi and MPa.

Self-suction at 1 m height:

- No water supply required.

Simple implementation:

- Operating instructions printed directly on the product.
