

MAKE THE MOST OF YOUR TALENT

PRESS RINGS FOR TIGHT SPACES

Crimp where you couldn't crimp before.

02

SIMPLE ONE-HANDED OPERATION...

...for positioning the press ring on the fitting, thanks to the two indexed opening positions.

01

CRIMPING CLOSE TO WALLS

Crimp fittings directly at wall exits and in tight spaces, thanks to the 180° ring orientation.

PRESS RINGS COMPATIBLE WITH THE ENTIRE RANGE OF VIRAX 20 KN AND 32 KN CRIMPING MACHINES!

Use the PBS1 activator jaw with your Virax M2X / L2X crimping machine.

Use the PBS2 activator jaw with most 32kN crimping machines on the market.

03

MULTI PROFILES, MULTI DIAMETERS

For maximum adaptability on-site, thanks to a wide range covering most press fitting systems.

Supplied in a VIRABOX
