Virafal 24 app

Find the Virafal 24 application on:
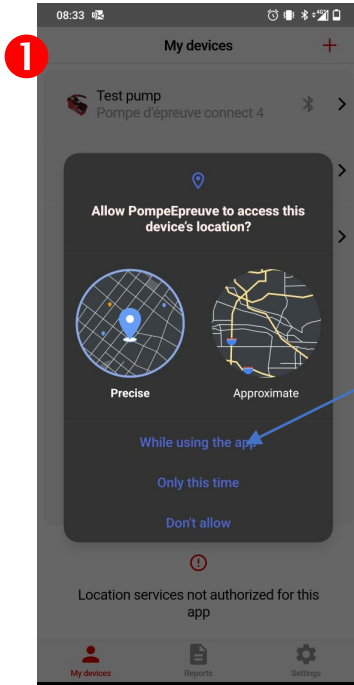

Google Play   App Store

Virafal 24

A – 1st launch of the application

B – Add a Virafal Connect to the application

C – Delete a Virafal Connect to the application

D – Connection of the application to a Virafal Connect

E – Show cleaning information

F – Recover cleaning data

G – Pre-fill a report

H – Create a report

I – View the reports created

A – 1st launch of the application

The app requires your GPS location when writing the report.
For this reason, you must authorize the use of location

The app communicates with Virafal Connect via a Bluetooth connection.
This is why, in addition to Bluetooth being enabled, you need to allow the app to use Bluetooth in your phone settings.

*Settings ➔ Applications ➔ app management ➔ Virafal 24 ➔ Permissions ➔ Bluetooth LE ➔ Allow*
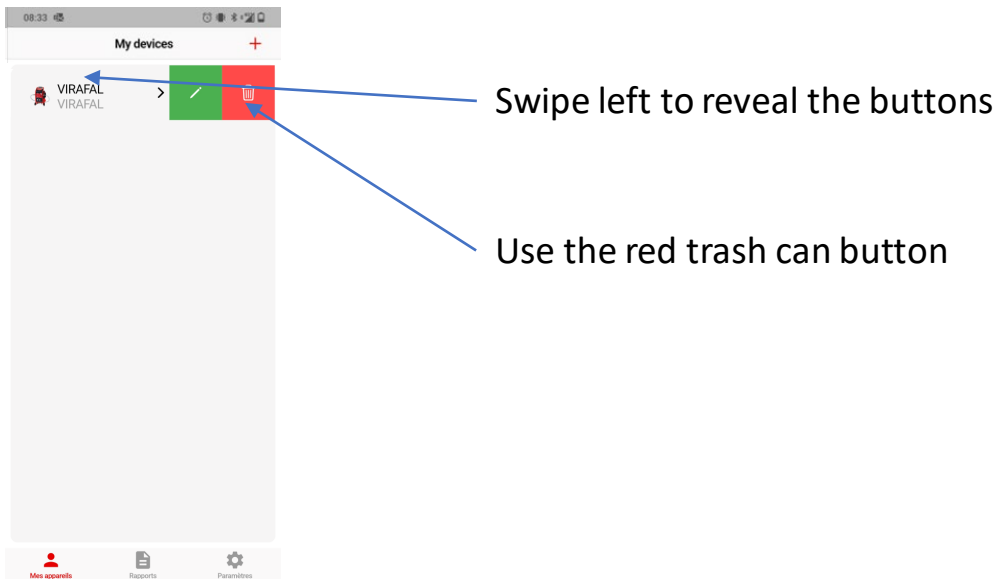

B – Add a Virafal Connect to the application

❶

Find a device

You must be near the device to add

❷

Select a device from the results list

## C – Delete a Virafal Connect from the application
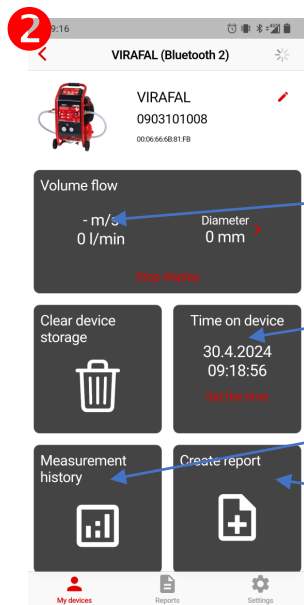

Swipe left to reveal the buttons

Use the red trash can button

D – Connection of the application to a Virafal Connect

Select a Virafal Connect from the list of already added devices
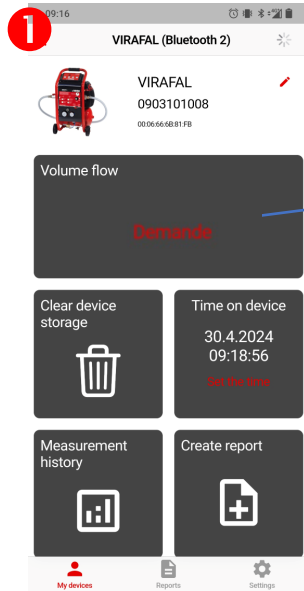

Viewing device information

Flow information

Device time

Measurement history

Editing a report

E – Show cleaning information

Click to start displaying information

Do the cleaning

Flow information appears and evolves live

Cleaning cycle recordings are made automatically after cycle changes via the Virafal Connect control panel
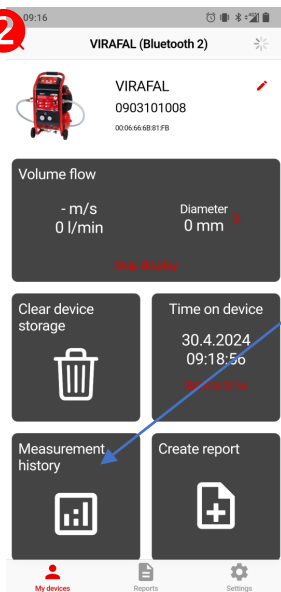

F – Recover cleaning data

❶

Put the Virafal Connect on stand-by

❷

Click on Measurements history
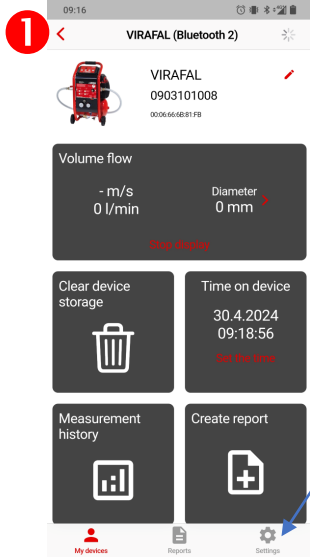

Click to download all measurements

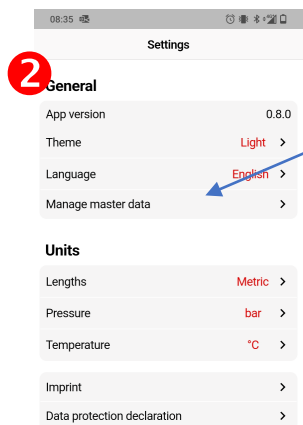

All measurements are now available to make reports
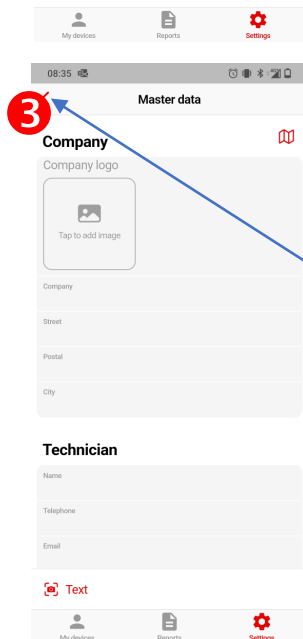

G – Pre-fill a report

The application allows you to pre-populate your reports with your company's data to save time.
To do this, click on "Settings"

Click on "Manage master data"

Fill in all the information necessary for the report

Return to the home screen once finished to validate. Your data is saved

H – Create a report

❶

Click "Create Report"
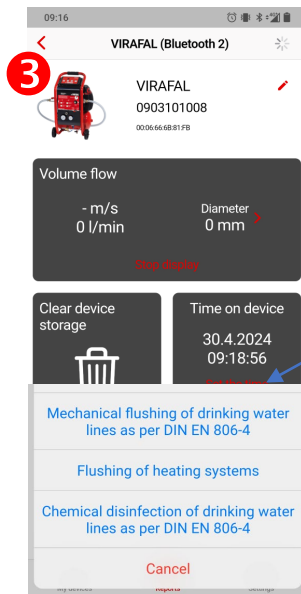

❷
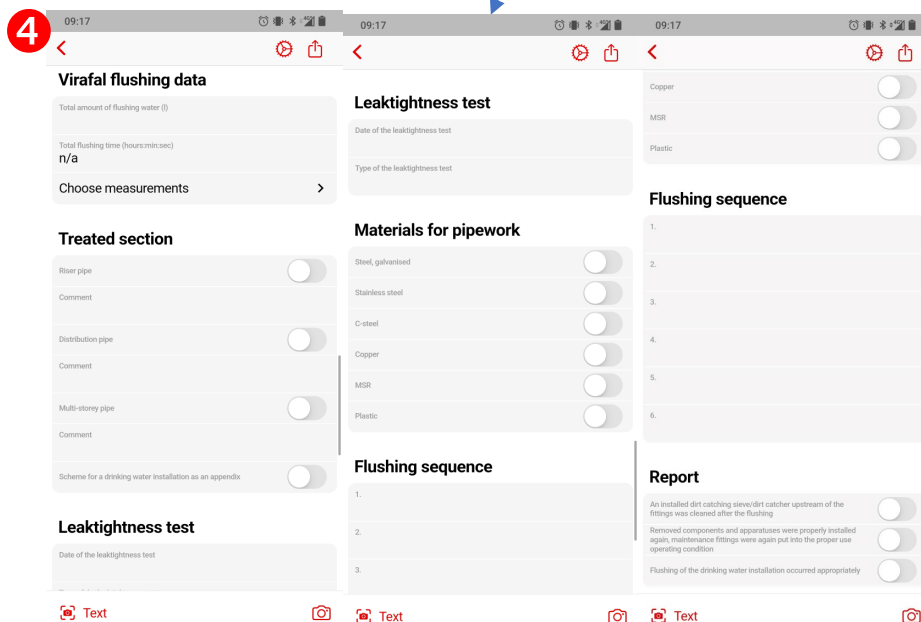

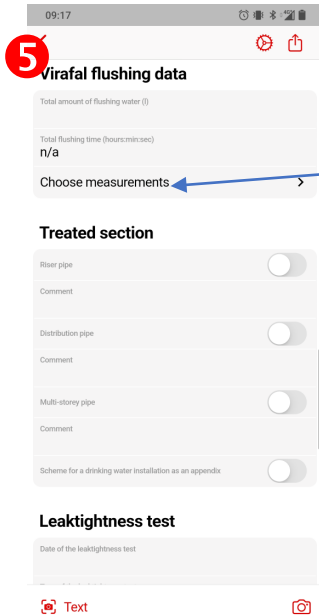

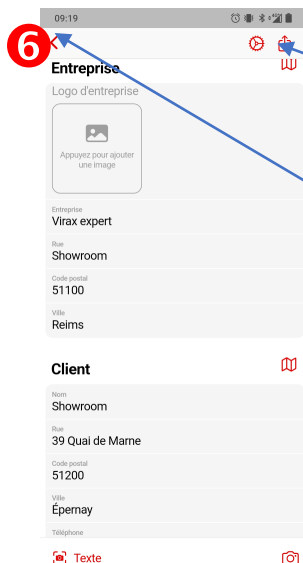

Give your report a name

Select the type of network tested

Fill in all the information necessary for the report which has not yet been completed
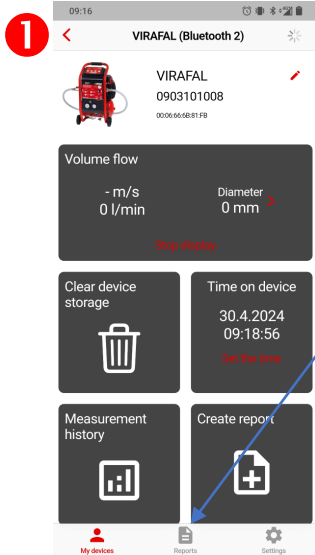

Select one or some measurements

Create the report in PDF format.
You can then print it or share it.

The report is automatically saved by pressing the back button.

I – View the reports created

❶

Click "Report"

❷

Select the report to view

Swipe left to reveal the buttons
